Dear Sir:

RESPONSE

In response to the Office Action mailed March 16th, 2005, Applicant respectfully requests reconsideration of the amended Claims 2-5 in the above-referenced application in light of this response and amendment as stated in the following paragraphs.

The Examiner has objected to Figure 1 because the numbers 1-8 do not include descriptions for the numbers. A replacement sheet for Figure 1 showing descriptions for the numbers is included in this response.

The Examiner has rejected Claim 1 under 35 U.S.C. 103(a) as being unpatentable over Laursen. (U.S. Pat. No. 6,292,657) in view of Tabuki (U.S. Pat. No 5,706,427). The Examiner has stated that Claim 2 is objected to as being dependent upon a rejected base claim, but would

be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Although Applicant still disagrees with the Examiner's interpretation of the prior art in regards to the "Agents", Applicant in the amendment below has cancelled the rejected Claim 1 without prejudice and incorporated its limitations in the now amended Claims 2-5 in order to allow this important application to proceed to issuance.

The amended claims in this important patent application are now in fact drawn to a new, useful and nonobvious invention. Accordingly, Applicant respectfully submits that the invention as now claimed is clearly patentable over such prior art or any combination thereof.
